

**AMENDMENT TO THE SPECIFICATION**

Page 16, please amend the paragraph beginning on line 23, as follows:

FIGURE 5 shows an embodiment of the invention identical to that of  
FIGURE 4, except that an energy transforming device for transforming the  
wireless energy into storable energy is incorporated in the implanted control unit 6  
and that the implanted source of energy 236 is of a type that is capable of storing  
the storable energy. In this case, in response to a control signal from the external  
control unit 10, the implanted control unit 6 controls the switch 238 to switch from  
an off mode, in which the implanted source of energy 236 is not in use, to an on  
mode, in which the source of energy 236 supplies energy for the power of the  
stimulation device 4.
